

Statement on "SVHC" and Annex XIV, REACH

It is our intention to assist our customers to meet the information obligations set by Article 33 of Regulation (EC) No 1907/2006 (REACH). These obligations apply to suppliers of articles that contain above 0.1 % weight by weight of a substance which is on the Candidate List of Substances of Very High Concern for Authorisation (SVHC). The current Candidate List is available at <http://echa.europa.eu/web/guest/candidate-list-table>.

Please consult the chapter "Composition" in the individual European Union (EU) or European Free Trade Association (EFTA) Member State Safety Data Sheets of our products for information on the presence of substances included on the Candidate List in a concentration at or above 0.1 % weight by weight.

In case a substance, which has been added newly to the Candidate List, is not already declared due to other reasons in the chapter "Composition" in the EU or EFTA Member State Safety Data Sheets, then this chapter will be updated on the condition that the particular substance is present in our product in a concentration at or above 0.1 % weight by weight.

In such an event, every customer in the EU and EFTA will receive the updated EU or EFTA Member State Safety Data Sheet on our own accord, provided that he has been supplied by us with the product concerned within the last 12 months.

You can download the most recent European Union or EFTA Member State Safety Data Sheets of interest by following the links given below.
